

The Industrial Network Communication Experts

Data-Linc Group has provided industrial network communication solutions for over 15 years. Our goal is to enhance customer productivity using our unique combination of knowledge, technology, services, and partnerships. We manufacture a comprehensive line of industrial grade modems and networking devices that are designed to perform continuously in harsh environments, eliminating downtime... *saving you time and money!*

Data-Linc supports our products with expertise based upon in-depth knowledge of PLC communications. We are dedicated to providing our customers with products that perform beyond expectations, install easily, and operate continuously without maintenance. Data-Linc's combination of outstanding service and product performance has made our name synonymous with rugged and reliable wireless, wire, and telephone line modems.

Knowledge - Conocimiento - Connaissance - Conhecimento - 知识

Data-Linc's extensive experience with SCADA and factory automation systems is invaluable when designing, installing, and maintaining industrial communication networks. Our knowledge of network communication technology, system architectures, automation equipment configuration, software, and PLC programming ensures that you make the best choices and get the highest level of support before, during, and after startup.

Technology - Tecnología - Technologie - Tecnologia - 科技

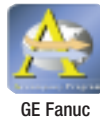

Data-Linc communication technologies are designed to operate in high-noise environments while maintaining a high level of security. Over the years, our products have been field-proven to perform in vital industrial systems within all major industries. Whether it's communication without wires, across wires, or over phone lines, Data-Linc offers superior technology for industrial automation.

Service - Servicio - Service - Serviço - 服务

Have you ever installed a communication product onsite and tried unsuccessfully to speak to the manufacturer when it doesn't work? This problem can cost your company dearly and may be the difference between a profitable project or not. Data-Linc Group offers a number of standard services to avoid disappointment in the field. From pre-sale project consultation, where the best technologies are chosen, to expert post-sale technical support, our services are much more than a website address. Factory preconfiguration of our products prior to shipment provides for seamless integration into your system. *Plug it in, and it works!*

Partners - Socios - Partenaires - Sócios - 伙伴

Close partnerships with automation leaders reinforce Data-Linc's position as one of the leaders in industrial network communications. Our alliance partners include Rockwell Automation, Siemens, Schneider Electric, GE Fanuc, Omron, and others. Data-Linc has forged powerful relationships with high-tech electrical distributors, system integrators, and engineering firms, providing the resources to get the job done right...the first time! We have distributors throughout the world, ensuring local assistance when needed.
