

MOTO CORDLESS MD7251-1

5.8GHz Digital Cordless
Phone

Multi-handset Capable up to 4 with the MD7201

PURIST

If you just need to say it, to stay in touch - to share ideas, stories, information - choose a Moto Cordless phone for all your everyday needs.

The high frequency 5.8GHz digital technology offers long range, clear sound and greater security. It is also Wi-Fi friendly so it won't interfere with your wireless network.
